A BOOK FULL OF FACTS ABOUT

**DR. McLAUGHLIN'S ELECTRIC BELT FOR WEAK MEN**

I KNOW THAT NO MAN REMAINS A WEAKLING BECAUSE HE WANTS TO; I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon and I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to have my book, in which I describe how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.

I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells or any ailment of that kind that unmans you, it would assure you future happiness if you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed, free, if you send this ad.

PLANS FOR THE NEW GEORGE WASHINGTON UNIVERSITY AT WASHINGTON.

Through the efforts of the George Washington Memorial Society, founded in 1897, the purpose of which was to establish in the city of Washington a university modeled after the plan outlined in the will of George Washington, the Columbian University, by a special act of Congress, recently changed its name to the George Washington University. The Memorial Society has agreed to provide the university with an administration building to be known as the George Washington Memorial Hall. The university has recently purchased a new site, immediately south of the White House, fronting upon the President's Park, and plans are now under way for a quadrangle of buildings with the Memorial Hall in the center.

THE SECOND PROMOTION DRIVE OCCURS TODAY

The second of the series of coaching drives arranged for the benefit of those who wish to see Honolulu and its environs will be given this morning. About one-half the seats possible in the coach have been taken and undoubtedly there will be a large turnout of visitors.

This trip is one which will take in Nuuanu Valley covering the entire length and terminating at the Pali. Sufficient time will be given at the top for a complete inspection of the great cliff and the mountains about it so that the picture possibilities may be exhausted by the devotees of the camera.

Nowhere in the world is there such a remarkable natural wonder, within such a short drive of the center of any city as the Nuuanu Pali. It is worthy of visit not only for the great beauty of the scene but as well because of the historic interest which attaches to it. The cliff at the head of the valley is close to one thousand feet on its sheer face, its foot buried in the exuberant foliage while the peaks on either side lift their crests into the cloud rack.

Along Nuuanu Valley are some of the oldest residences, and the most attractive grounds in the city. Through a beautiful roadway lined on either side with attractive homes the route proceeds past the Royal Mausoleum where lie the bones of the Kings and Queens of long ago. The thoroughfare is a beautiful one and its gradient so easy slight that the drive is quickly and comfortably made. On the outskirts of the city, once the swing up the valley commences the entire way is over historic ground.

The great battle of determination of the struggle by Kamehameha for the kingship of the group was fought near where is now the electric light station. To the right ascending were the forts of the King of Oahu and the roadway follows the path along which the defeated army was pressed toward extermination. Almost the entire way the road winds along the gulch through which flows the little stream and there are many vistas of extreme beauty. Koa and guava trees, tree ferns and ii vines are in luxuriance. From the cliffs which bound the valley threadlike water-falls tumble or are whipped into mist by the winds.

Above Luakaha where are beautiful homes to the left rise the twin hills about which the last stand was made by the Oahuans and from that point to the Pali it was a rout. Approaching the Pali over a road which had been hewed out of the hillside one sees to the left the opening through which poured the human stream as the victors herded their enemies to destruction. At the crest of the road there opens a panorama which is of much beauty. Stretching for miles away to the north is the fertile table land with the sea drawing its white line of surf along the reef which is only a few miles distant from the row of cliffs extending to the northern end of the island.

For this occasion the special wagonette of the Club Stables will take the party. Passengers from the Royal Hawaiian and Alexander Young Hotels will be picked up there and any others who may wish to take this ride may rendezvous at the rooms of the Hawaii Promotion Committee. The fare is the same as for all the trips of the series, one dollar for each seat.

Section 19. This Act shall take effect and be in force from and after its passage; Provided, however, that the same shall have no application whatever to licenses heretofore granted and all rights to licensees under such licenses shall continue until such license shall have expired.

A Paris dispatch says that Dr. Doyen, who will be remembered in connection with the Crocker suit, scored a success recently in the presence of Dr. Gallio and other members of a committee of inquiry, proving a cure of a serious cancer case. Dr. Gallio says: "We saw the woman some time ago. She had a cancer in the breast, which formed a hard mass, technically called a breastplate. It was immovable and impossible to be operated upon. After a number of injections the hard mass softened and became movable and an operation was made possible, which, when performed, resulted in a cure." Physicians are taking increased interest in Dr. Doyen's serum.
